# PAPERplus® Track: Compact and fast

PAPERplus® Track combines speed and outstanding cushioning in a compact machine. In mere seconds, the machine produces paper cushioning directly at the packing station, delivering highly effective paper padding.

## PAPERplus® Track at a glance

Suitable shipping goods	Medium to large packages with a weight of 10 to 100 lbs
Applications	Block & Brace, Cushion and Void-Fill
Perfectly fitting	Depending on the desired cushioning characteristics, the density of paper cushion can be adjusted for any product in advance.
Fast	Thanks to the on-demand function, the system automatically produces more paper cushions the moment they are removed.
Smart Operation	The machine features a touchscreen and can connect to Wi-Fi and can be monitored and controlled externally via tablet or phone if required.
Maintenance	The low-maintenance PAPERplus® Track works quietly and enables fast and easy paper replacement.
User-friendly	The paper is perforated, allowing the paper cushions to be mechanically separated easily without a cutting mechanism, thus maximizing employee safety.

## Storopack – Perfect Protective Packaging

Wherever you are sending your products in the world, we aim to ensure they are well protected during transportation.

## Outstanding Cushioning with PAPERplus® Track

With the PAPERplus® Track paper cushion system, you're well equipped to ensure high throughput and secure packaging material. PAPERplus® Track guarantees optimal packing processes and reduces process costs.
